In re: K292GN, San Bernardino, CA

BMPFT-20151123CUI Facility ID # 156157

Dear Applicant:

This refers to: (1) the above-captioned application for K292GN, San Bernardino, California.

An engineering study of the application reveals that it is in violation of Section 74.1235(b)(1). The application proposes a maximum effective radiated power ("ERP") of 25 watts. Section 74.1235(b)(1) states that the maximum allowable effective radiated power with an antenna height above average terrain (HAAT) over 141 meters is 10 watts. Our study reveals that the azimuth at 150° has a HAAT of 408.2 meters with an effective radiated power of 23.8 watts. The application failed to discuss this violation. Therefore, we will dismiss the application.

In light of the above, the application BMPFT-20151123CUI is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely

James D. Bradshaw

Deputy Chief Audio Division Media Bureau
